Emergency Contact Name	
Emergency Contact Number	

Medical History

Please answer the following questions to assist us in assessing your suitability for IV therapy:

1. Do you have any known allergies?

Yes ☐ No ☐

If yes, please specify: _____

2. Are you currently taking any medications or supplements?

Yes ☐ No ☐

If yes, please list: _____

3. Do you have any of the following conditions?

- Cardiovascular disease: Yes ☐ No ☐
- Kidney disease: Yes ☐ No ☐
- Liver disease: Yes ☐ No ☐
- Diabetes: Yes ☐ No ☐
- Hypertension (high blood pressure): Yes ☐ No ☐
- Hypotension (low blood pressure): Yes ☐ No ☐
- Other significant medical conditions: _____

4. Have you recently experienced any of the following symptoms?

- Fever or infection: Yes ☐ No ☐
- Unexplained weight loss: Yes ☐ No ☐
- Persistent nausea or vomiting: Yes ☐ No ☐
- Other concerning symptoms: _____

5. Are you pregnant or breastfeeding?

- Pregnant: Yes ☐ No ☐
- Breastfeeding: Yes ☐ No ☐

Blood Pressure Assessment

Your blood pressure will be measured before the injection to ensure safety. If your readings fall outside a safe range, treatment may be postponed or modified.

- Pre-Treatment Blood Pressure Reading:

Systolic: _____ mmHg

Diastolic: _____ mmHg

- Classification (Clinician Use Only):

- ☐ Normal (90/60 mmHg to 120/80 mmHg)
- ☐ Elevated (121/81 mmHg to 129/84 mmHg)
- ☐ High Blood Pressure (130/85 mmHg or above)
- ☐ Low Blood Pressure (Below 90/60 mmHg)

Important Note: If your blood pressure is significantly high or low, your clinician may advise delaying treatment or adjusting the injection dosage.

Procedure Information

Intravenous (IV) therapy involves the administration of vitamins, minerals, and other nutrients directly into the bloodstream through a vein. This method allows for rapid absorption and utilisation by the body.

Potential Benefits:

- Improved hydration
- Enhanced nutrient absorption
- Increased energy levels
- Support for immune function

Potential Risks:

- Discomfort or bruising at the injection site
- Infection
- Allergic reactions
- Imbalance of electrolytes or nutrients

It is important to note that while many individuals experience positive outcomes from IV therapy, results can vary, and no specific results can be guaranteed.

Consent Statement

I, _____, hereby consent to receive IV therapy from Pink Beauty Aesthetics Beauty Clinic & Academy. I acknowledge that:

- I have provided accurate and complete information regarding my medical history and current health status.
- I have been informed about the nature of IV therapy, including its potential benefits and risks.
- I have had the opportunity to ask questions and have received satisfactory answers.
- I understand that I can withdraw my consent and discontinue treatment at any time without prejudice.
- I agree to immediately inform the healthcare provider of any adverse reactions or concerns that arise during or after the treatment.
- I understand that this consent form will be kept as part of my medical records in accordance with the Data Protection Act 2018 and General Data Protection Regulation (GDPR).
